A New Recipe for Thrift

One of the chief reasons why so many people find it difficult to save money is that they itemize it last in their expenditures and have nothing left when they get around to it.

The sure way to save is to make provisions for the future just as regularly as you buy provisions for the ice-box.

Set aside so much for Prudence-Bonds before you pay anything else, and you will save it out of the economy it compels in your other expenditures.

Optional economy is always postponed, but compulsory economy makes thrift imperative.

Remember, too, that Prudence-Bonds can be obtained in a small 1924 denomination, which is expressly designed to meet the needs of small investors - $2 a week, too. They are secured by first mortgages on selected New York properties and every dollar of their principal and income is guaranteed by our entire resources.
