CHARMING PAGEANT PICTURES
ENFRANCHISEMENT FOR D.C.

A Vision of the Future Repeated Before
Members of Congress and Other Notables—Many Stirring Scenes.

While many members of Congress watched expectantly, striking scenes were
presented to them today at the screen at the Secretaries Club. In
a special pageant, a sight that has never been seen before
in Washington, was watched by such men as
Mr. Tipton, Mr. Rusk, and Mr. Lewis, as they
walked to the room.

The pageant was featured by a part
where a man carrying a sign read:
"Voters or not, the little Dutchman is
free to vote.

DESIRE HILL.

"It won't burn"—the standard wall and ceiling material in
unit form—it is made from rock, hence fireproof. Just
pull the sheets to the studs or joists and decorate any
way—wallpaper, paint or panel. The walls will endure
as long as your building stands—rigid, warp-proof, fire-
proof, everlasting. Come in and let us show you
