FIRST HALF OF YEAR RECORDS GREAT PROGRESS

No Period in U. S. History Shows Greater Progress in Opinion of Manufacturers’ News

READJUSTMENTS ALREADY EFFECTED

AMERICA HAS ALREADY ENTERED INTO NEW ERA CONTAINING VITAL ELEMENTS OF UNPRECEDEDNTED PROGRESS

Chicago, July 31—It is pointed out by the history of the United States that present progress has been made during the first half of 1971, the Manufacturers’ News, at the close of the first six months of the year, was characterized as a period of readjustment, when, as a result of the depression, both in industry and business, there was a decided downward trend of the national economy.

The great basic and manufacturing industries are now on the wave of progress, and the trend is to the increase of production and the building up of new capital assets. This is not only due to the readjustments of the industries during the depression, but also to the fact that the great industrial countries of Europe are in a period of economic recovery, and the result is that our markets are expanding and our exports are increasing.

It is not only the manufacturing industries, however, that are on the wave of progress. The agricultural industries are also experiencing a marked increase in production, and the food supply is abundant and of good quality.

The outlook for the remainder of the year is hopeful, and it is expected that the progress made during the first half of the year will continue throughout the remainder of the year.

DYER PROPOSES ESTABLISHMENT OF CAMPING SITE AT CITY LAKE

PREMISE TO ESTABLISH CAMPING SITE AT CITY LAKE

It was announced this morning by Mr. Dyer, the Mayor of the city, that he is going to propose the establishment of a camping site at the city lake. The proposed site will be located on the north shore of the lake, and will be situated on a flat, tree-shaded area.

Mr. Dyer said that he is going to petition the city council for the necessary funds to develop the site, and that he will also seek the cooperation of the city council in providing the necessary equipment and facilities.

The proposed site will provide a place for the public to enjoy the beauty of the lake and the surrounding countryside. It will also be a place for the public to relax and enjoy the outdoors, and it will be a place for the public to come together and enjoy the company of others.
